BERLIN, Oct. 26.—The proposed conference between Prince Bismarck and Count Kalnoky and Premier Crispien, has been delayed until after Emperor William's visit to the sultan of Turkey. The practical importance of the event is not now denied. It is admitted in the official circles that the emperor's visit to the sultan will result in the conclusion of a treaty between the two empires. The emperor's visit to the sultan will result in the conclusion of a treaty between the two empires. THE ALTON CASE HEARD. WASHINGTON, Oct. 26.—Arguments in the case of the Chicago board of trade vs. the Chicago & Alton railroad company and others, were heard by the interstate commerce commission today. The complaint in this case is that the defendant roads violate the provisions of law by demanding a much greater compensation from Kansas City, Mo., and other points than from Chicago, Ill., for the same service in transporting goods.

THE IMPERIAL PARTY IN GREECE. The news of the arrival of the imperial party aboard the Hohenzollern to the prince was telegraphed here at 2 o'clock this afternoon. The German squadron was sighted passing the extreme southwest point of Moria at 6 o'clock this morning. A gale was then blowing. Cablegrams state heavy weather was encountered. The emperor was prostrated by a stroke.

THE KING AND QUEEN OF GREECE, and the crown prince received the imperial party at the entrance to the harbor. Their landing was delayed two hours owing to the condition of the emperor. After landing the party took a train for Athens, where they were received by the Greek minister and resident diplomats. They then drove to the palace in state carriages. The route was lined with troops and immense throngs gave an ovation to the imperial party.

THE WEDDING PRESENTS. The princess's already marvelous jeweled crown has been enlarged by her mother adding a diamond and a ruby cross as an heirloom of the English royalty, which was first worn by Princess Charlotte of Wales. Queen Victoria's presents do not figure prominently. They consist of the usual Indian shawl, whereof she seems to have a really store, a set of Honiton lace, a narrow diamond necklace and a number of books. In contrast is King Humbert's present, a splendid set of diamonds valued at 300,000 marks.

THE PRESSURE OF THE TARIFF. Though there is abundant proof of the terrible pressure on the poor by the existing tariff it is improbable that the wealthy will grant relief, though it is certain that the poor will be a prominent factor in the coming election. A section of the national liberals support the progressists for the abolition of the pork duties.

FREYTAG'S BOOK THE TALK. Freytag's book has created a sensation. Prince Bismarck before its publication advised the suppression of certain passages referring to the negotiations over the formation of the empire. Herr Freytag declined to suppress the passages. The chancellor did not insist. The compliance of Bismarck is attributed to Freytag's assurances of the unwelcome interference of the then emperor, who, the book declares, guided when it was natural he ought to be guided, thus causing difficulties and conflict. Another passage hateful to Bismarck describes the late Emperor Frederick as afflicted with morbid moods and in mind and body long before his fatal disease attacked him. His vital energy, the book declares, was no longer befitting the heir to the imperial crown. The persistence of the crown princess were unable to banish his sadness. She often thought to abdicate in favor of his son.

MATAAFA MADE KING. Trouble Brewing Caused by Dissatisfaction of Tamas's Followers.

SAN FRANCISCO, Cal., Oct. 25.—The following advice have just been received from Samoa via the steamer Mariposa: The chiefs of the various districts in Samoa held a meeting here October 2 for the purpose of electing a king to govern the islands, pending ratification of the respective powers of the report of the Berlin conference. The meeting was attended by representatives of nearly all the districts, and about 2,000 persons were present. Mataafa was elected king. The old king, Malietoa, who was recently brought back from the Marshall Islands, was present and was in a very feeble condition. He addressed the people by saying: "We have faith in Mataafa's leadership and guidance you will be a prosperous people and permanent peace will be secured in Samoa. I now retire in favor of Mataafa."

GLADSTONE ON THE WAGE QUESTION.

LONDON, Oct. 26.—Mr. Gladstone made an address at Chester today on the condition of the working class. He contrasted the English workingman's position today with that of fifty years ago, showing that during the half century there has been an increase of 50 per cent in wages, while the cheap food and clothing now obtainable are better than heretofore. In conclusion he charged English workers to study the history of the American revolution. He claimed that it was from this country that love of freedom was sown in America. England now in return reaped advantages from the American vindication of these principles of freedom which animated the revolution. The system of government in America combined that love of freedom, respect for the law and desire for order which formed the surest elements of national excellence and greatness.

WESTERN BANKS DECEASED. SEDALIA, Mo., Oct. 26.—Ex-Mayor E. W. Stephens learned that a former employee of his, C. J. Tracey, had victimized several banks in southeast Missouri and southern Kansas in the past two weeks and caught each one of them for \$100 by giving them bogus checks drawn ostensibly by Stephens. He began his operations at Fulton, Mo., jumped from there to Parsons, Chetopa and Oswego, Kan., and was last heard of at Stockton, Cedar county, Mo., where he obtained \$100 by giving a draft on Stephens for that amount. He professes to be buying notes for the latter. The drafts have been protested in this city and the banks will lose the money.
